

Metro-East Lutheran High School

Student Vehicle Registration & Parking Guidelines

Read the following guidelines and complete the form below and return to the school office when you pay for your parking permit.

1. Parking lot spaces are assigned to individuals by number. When the numbered spots have all been assigned, a student will be given a tag for off-lot parking. Parking lot spaces are assigned for student use during regular school hours.
2. A permit with the corresponding number of the parking space must be clearly visible in the front window of the vehicle when parked on campus.
3. Drivers are legally responsible for their actions. Students failing to observe good and safe driving procedures may have their privileges to park on campus temporarily or permanently revoked.
4. Vehicles parked on the campus by any student shall be subject to search by school authorities if there is a reasonable suspicion that the student, or one of the passengers of the vehicle, is using, selling, or in possession of drugs, alcohol, weapons, or other contraband including look-a-likes of these items. The legal owner of any vehicle parked on campus automatically grants permission for any search under these guidelines when he or she allows one of our students to drive his or her vehicle and park it on our campus.

I have read and I accept the guidelines above regarding student parking at Lutheran High School.
